

## **Talent's Day 2016**

It was announced a week prior, about the arrival of the day where the fresher's to the B.Ed course of St. Xaviers's Institute of Education will be getting an opportunity to display their talents. The students were divided into houses namely Asha, Satya and Astha and could perform either individually or as a group. Slots were provided for the students to practice. In the first slot each group listed their member's talents and accordingly planned the program. Since there was time constraint of 20 mins per group, the execution of talents were decided accordingly. Invitation cards were given to manager Rev.Fr.Blaise D'souza, Principal-In-Charge Dr. Geeta Shetty, teachers and the Second year students.

The program began with a warm welcome of applaud for Manager Fr. Blaise D'souza, Principal in charge Dr. Greta Shetty, Teachers and seniors.

The first group to present was Asha group followed by Satya and Astha group respectively. The entire group started with a welcome speech followed by the presentation of talents. A variety of talents in students were seen on this day. "Talents have no boundaries" and this is what was witnessed. Right from dance to singing to acting to paintings and hairstyling all talents were portrayed so well. It was a great day with lots of fun. The second year students who were the audience encouraged the first year students throughout with applaud and cheering words.

The program came to an end with encouraging speech by the Manager and Principal In Charge. Since this was the first programme where the First and Second year students were present, the second year students welcomed the first year students by giving a small gift in the form of bookmark as a token of welcome.

Thus this Day, the first event of the year, gave a great kickstart to the freshers which involved each and everyone, setting up the energy levels for the future journey of learning and teaching at SXIE.
