

Report on Assembly on upcoming Lok Sabha Election 2024.

By Nidhi J Makwana.

Elections play an important role in running a country effectively as they give citizens of the country a choice to choose their representative. Voting helps you make a difference in society by choosing the right representatives. We should be aware of our 'Right to Vote' and use it efficiently for the betterment of the nation. Keeping this in mind, St. Xavier's Institute of Education arranged an assembly for the upcoming Lok Sabha Elections 2024 to create awareness about the duty of responsible citizens of India.

The assembly was organized on 14th March 2024 in the Multipurpose Hall at 9:10 am. The assembly began with students taking a pledge to vote without biases and fear to select the best representative for our nation. Following the pledge was an extempore speech competition in which 5 students from F.Y. B.Ed and 5 students from S.Y. B.Ed were given 1 minute each to represent their thoughts while also motivating the class to vote in the elections. Prizes were awarded to the best 3 speakers from each class. A house-wise poster-making event was also organized after the break. The students worked in groups to make the best poster that would motivate people to vote.

The unity that students of each house showcased while making posters and the fortitude with which they expressed their thoughts ensured us that the future of our nation is in safe hands with our future teachers being the beacons that will guide the next generation.
