

What makes a person a liberal?

BIJOY K THOMAS APR 27, 2022 02:07AM UTC

When person get the freedom to live their life according to them in the boundaries of their rights.

When we have the freedom to express ourselves in a proper way

Feeling of security

No restrictions

Open mind

Freedom to express our percptions

Feeling of being acknowledged

When a person has the freedom to practice and express their belief and thoughts without any fear

When they are not bound by any law that restricts their movements

By getting all basic Human rights

Sense of responsibility

No restrictions imposed in terms of religious beliefs

Freedom of speech

Being broad-minded

Taking ones own decisions regarding their life

Right to express

The sense of security with

To go to any part of my country

Freedom to express

Openness

Thoughts.

Fundamental rights

Living a life with complete dignity - socially, economically and politically

Being accepted in society

People are able to follow their own religious beliefs

When people respect each other religion.

When they have the right to express their thoughts and emotions.

The feeling of being secure

No forced rules

No restriction

Tolerant

Characteristics of Lecture Method and Demonstration Method

BIJOY K THOMAS JUL 03, 2021 05:01AM UTC

Lecture Method

To deliver information through speech

alot of theory is included

Theory based

Concepts explanation verbally

Theory is explained

Concept is taught with help of words.

May include more of abstract thinking

suitable for languages but not for science

Giving knowledge with examples

Demonstration Method

hands on experience

Practical in nature

Theory is proven along with explanation

develops curoosity

Teaching by conducting experiments

To deliver information through action

Experimentation

Develops scientific attitude

concept is explained with the help of activity

Validation of concept

Can comprise of hands-on concrete experience

Practical work

Demerits of Lecture Methods

Might not clear the concept only based on lecture

some concepts cannot be explained by lecture method

science concepts are not to be imagined

Gets too monotonous.

Students who don't understand concepts end up day dreaming

it is difficult to comprehend concept.

Students may not develop that good understanding without observation

Students are passive

Demerits of Demonstration Methods

not all equipment's can be found

Materials may not be available

Student might just observe the experiment but not learn about theory

time consuming

Connection with the topic may not be understood well by all

Time consuming

can be expensive

Everyone might not get experience

Lecture cum Demonstration
