Dear students

38 students out of 50 have got full marks in the sum that you attempted in today's class test. I am happy for these students. The other 11 students need little more help, so please try your best. COngratulations class for a wonderful performance. You have made me proud.

Ma'am, your ppt and recorded classes as well as practiced sums were very helpful for me during my class test preparation. It was very self-explanatory. Thank you Ma'am for your efforts and making this unit simple and interesting.

Watch this amazing video featuring Dr. Shashi Tharoor where he is answering the question What is the status of Education past and present? A total analysis worth watching. Try to catch the 4 Es in Education with a thorough research. Why is Education a National Security issue? What are aspects which lead to Quality in Education? What are the mismatches in the Education system and many other concerns expressed in this video. Please reflect on this question? It's a question worth reflecting for all teachers.

A well educated mind vs...
